DATTO NETWORKING WIFI

Datto Networking Wifi

Not too long ago, WiFi for business was rare. Then came the IEEE 802.11n standard, and things changed.

Today, WiFi is everywhere, and small to medium sized businesses are right in the middle of it.

The current standard is 802.11ac Wave 2. Now, if you don't understand what Wave 2 means, that's ok. What you need to know is that it is faster and can handle more connections than any previous standard. Wave 2 is what has the potential to turn your mediocre WiFi into really good WiFi. And your quickest path to getting there is through your MSP.

MSP Managed WiFi

Why is an MSP your quickest path to really good WiFi? Simple. MSPs, Bluegrass, are experts in IT services. We align ourselves with the best technology vendors so that we can proactively deliver great service to our clients. Datto are one such provider.

Datto have designed access points specifically for your business needs, to ensure you get the best and most broad wireless coverage.

Universal Mounting Options

Datto Networking access points (AP's) are designed to be deployed in virtually any environment.

With an operating temperature range starting at -20°C up to 50°C, harsh cold or heat are not a problem. And with an IP55 rating, the APs can be installed indoors or outdoors, and can even handle dust and rain.

Powerful WiFi

WiFi networking should always be available, accessible throughout your office, and seamless to every user.

That's why Datto Networking WiFi access points deliver powerful, seamless roaming for always connected WiFi.

With options ranging from 2 x 2 dual band ac Wave 2 to the newest Tri-Band ac Wave 2 model, you will experience powerful WiFi, backed by Bluegrass and the team at Datto.

Self-Healing Mesh

All Datto Networking access points are mesh enabled and get their power from PoE+ (802.3af/at).

Access points work together to form a self-organising, self-healing, encrypted mesh network with seamless WiFi roaming automatically enabled.

That means no more dead spots.

It's WiFi continuity, wherever it's needed.

Plug it in install

To install Datto Networking AP's, it's a matter of just plugging in the devices. That's because all Datto APs get their configuration from the cloud. Set up the configuration once, then plug in the AP. It really is that simple. Other than pluggng in the Datto AP there is nothing to install on your premises.

Everything is setup in the cloud, then just-plug-it in.

OTHER SERVICES

Microsoft Office 365

Comprehensive Cloud based solution of Microsoft Word, Excel, Outlook, PowerPoint, SharePoint, OneDrive and Teams.

Email Security

Defends end users against various strains of malware, weaponised attachments and phishing emails that evade traditional detection.

THE BLUEGRASS DIFFERENCE

Your IT infrastructure underpins your business success. It needs to support your day to day operations and facilitate your future growth.

By choosing this service with Bluegrass Group, you'll benefit from partnering with a Managed Services Provider who's small enough to care, but big enough to cope.

Established in 2007 and serving clients across the UK, you can rest assured knowing you're in safe hands. We'll proactively support, protect and enhance your IT systems 24/7/365 days a year to allow you to get on with what you do best.

Unlike some larger providers, you'll always receive a personalised service with dedicated contact every step of the way.

Customer service excellence is our number one priority and our entire team are here to make your life easier. From Relationship Management that truly listens to your individual business needs, pain points and goals, to Engineers who consistently receive an average score of 5 out of 5 for support.

You'll be able to take advantage of having access to highly skilled technical experts who can provide you with ongoing advice, systems design and implementation

By moving your services to Bluegrass Group, you'll also enjoy a seamless integration experience with a dedicated point of contact, plus on-going benefits such as one invoice, one phone number and complete compatibility across all of the services you take from us.

We are dedicated to enabling our employees to inspire businesses to get the most out of technology so that, together, we can help you achieve success.
