

EMAIL SECURITY ADVANCED THREAT PROTECTION (ATP)

SMEs Under Attack, Email Attachments Widely Targeted

Often seen as easy targets, criminals prey on small and medium-sized businesses while leveraging advanced techniques to bypass traditional security. Typically, smaller organisations do not have the resources that larger enterprises have, so they need a solution that will provide them with a similar level of advanced protection in a cost-effective, easy to manage package.

Enterprise-grade Email Protection

VIPRE Email Security Advanced Threat Protection (ATP) offers enterprise-grade email protection in an easy to use, out of the box package. VIPRE ATP defends end users against the newest most sophisticated strains of malware, weaponised attachments and phishing techniques that evade traditional detection.

Train

It is not always disgruntled workers and corporate spies who are a threat. Often, it is the non-malicious, uninformed employee. Our easy-to-understand, short and visually engaging training videos end with an online quiz to verify the employee's retention of the training content.

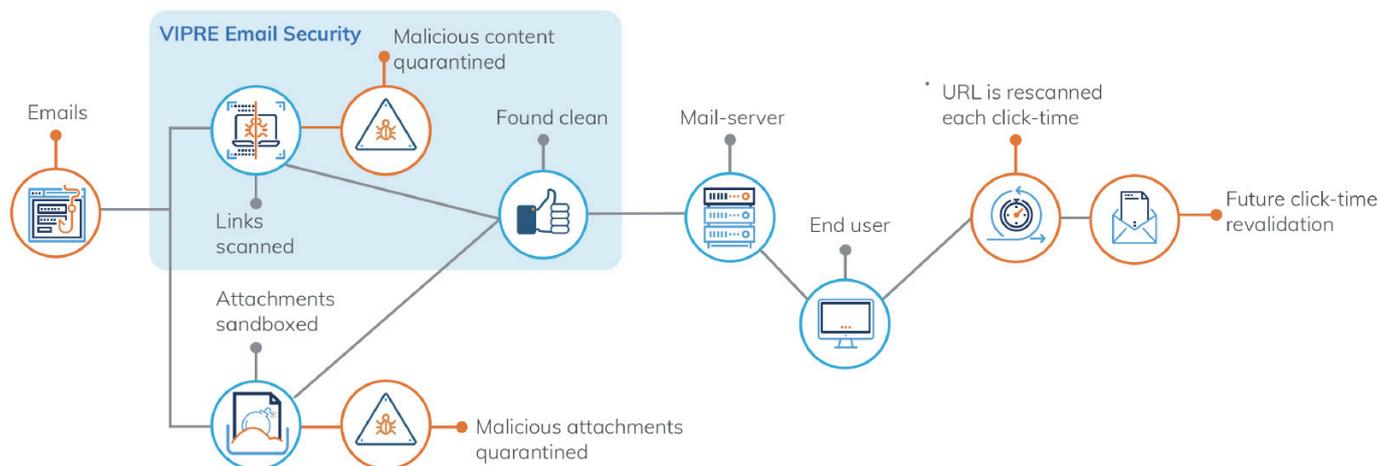

Attachment Sandboxing

Attachment Sandboxing goes a step further than traditional antimalware by executing extracted attachments in a protected cloud sandbox environment. The behaviour of the executed content is observed and compared against our database of millions of malware samples using sophisticated machine learning to determine if the content could be malicious.

Phishing Protection

Phishing Protection provides another layer of defence against embedded malicious URLs by closing the time gap, often exploited by attackers, between receipt-time scanning (performed by the core platform as the email is received) and when an end user clicks on the URL. All an attacker has to do is to wait to set up a malicious domain until sometime after an email is sent, and users could be fooled into visiting a phishing site.

Measure and Track

OTHER SERVICES

Microsoft Office 365

Comprehensive Cloud based solution of Microsoft Word, Excel, Outlook, PowerPoint, SharePoint, OneDrive and Teams.

Email Security

Defends end users against various strains of malware, weaponised attachments and phishing emails that evade traditional detection.

Email Encryption

Specialised security software technology for protecting the confidentiality and integrity of email messages and attachments.

Security Awareness Training

Security awareness program for your staff to help reduce your company's vulnerability to Phishing email scams.

Office 365 Data Protection

Cloud backup, restore and export solution that covers Exchange Online, OneDrive SharePoint Online, and Microsoft Teams

Antivirus

A comprehensive defense-in-depth approach to endpoint protection with the industry's best malware detection engine.

Device Disk Encryption

Full disk encryption of your devices to safeguard important and sensitive data. An essential first line of defence.

Dark Web Trace

Software that can detect if your company is at risk due to stolen and exposed credentials for sale on the Dark Web.

VoIP Phone System

A flexible phone system that can cater for businesses of any size, irrespective of whether you have a single site or many offices.

Internet Connectivity

Business broadband, fibre, leased lines and for those hard to connect areas, satellite broadband.

THE BLUEGRASS DIFFERENCE

Your IT infrastructure underpins your business success. It needs to support your day to day operations and facilitate your future growth.

By choosing this service with Bluegrass Group, you'll benefit from partnering with a Managed Services Provider who's small enough to care, but big enough to cope.

Established in 2007 and serving clients across the UK, you can rest assured knowing you're in safe hands. We'll proactively support, protect and enhance your IT systems 24/7/365 days a year to allow you to get on with what you do best.

Unlike some larger providers, you'll always receive a personalised service with dedicated contact every step of the way.

Customer service excellence is our number one priority and our entire team are here to make your life easier. From Relationship Management that truly listens to your individual business needs, pain points and goals, to Engineers who consistently receive an average score of 5 out of 5 for support.

You'll be able to take advantage of having access to highly skilled technical experts who can provide you with ongoing advice, systems design and implementation

By moving your services to Bluegrass Group, you'll also enjoy a seamless integration experience with a dedicated point of contact, plus on-going benefits such as one invoice, one phone number and complete compatibility across all of the services you take from us.

We are dedicated to enabling our employees to inspire businesses to get the most out of technology so that, together, we can help you achieve success.
