

CYBER ESSENTIALS PLUS

What is Cyber Essentials Plus?

Plus certification extends Essentials Basic by including internal scan and an on-site assessment of your infrastructure, specifically focusing on workstations and mobile devices.

Guided Process

The Cyber Essentials Plus process is completely guided, so you can have peace of mind that you're in expert hands, and assessments are fully remote (including homeworkers) thanks to our proprietary technology.

The Cyber Essentials certification is a good first step, but there is no independent verification. Cyber Essentials Plus involves us checking that you are aligned with all the important security controls. We always recommend that you undergo a Cyber Essentials Plus 'Pre-Assessment' first (charged at an additional cost), so that any security gaps can be identified and then remediated, ensuring a pass when it comes to the actual Plus assessment itself.

Assessment

Cyber Essentials Plus helps reduce your cyber risk by 80% by ensuring that your business is aligned with the five technical controls: Malware Protection, Firewall, Password-based Authentication, User Access Control, and Secure Configuration.

However, unlike the basic Cyber Essentials certification, you'll also be scanned for vulnerabilities, as well as checked against several additional controls by our cyber specialists.

Logos and Certificate

Once you have achieved Cyber Essentials, your business is immediately issued with the report and certificate and you can start using the Cyber Essentials logos on your website and marketing collateral.

Features of Cyber Essentials Plus

Cyber Essentials Plus gives you extra peace of mind for your business plus other benefits:

- **100% remote assessments.**
- **Fully guided process.**
- **Verified Certification.**
- **Prevent 80% of cyber attacks.**
- **Save on insurance.**

THE BLUEGRASS DIFFERENCE

Your IT infrastructure underpins your business success. It needs to support your day to day operations and facilitate your future growth.

By choosing this service with Bluegrass Group, you'll benefit from partnering with a Managed Services Provider who's small enough to care, but big enough to cope.

Established in 2007 and serving clients across the UK, you can rest assured knowing you're in safe hands. We'll proactively support, protect and enhance your IT systems 24/7/365 days a year to allow you to get on with what you do best.

Unlike some larger providers, you'll always receive a personalised service with dedicated contact every step of the way.

Customer service excellence is our number one priority and our entire team are here to make your life easier. From Relationship Management that truly listens to your individual business needs, pain points and goals, to Engineers who consistently receive an average score of 5 out of 5 for support.

You'll be able to take advantage of having access to highly skilled technical experts who can provide you with ongoing advice, systems design and implementation

By moving your services to Bluegrass Group, you'll also enjoy a seamless integration experience with a dedicated point of contact, plus on-going benefits such as one invoice, one phone number and complete compatibility across all of the services you take from us.

We are dedicated to enabling our employees to inspire businesses to get the most out of technology so that, together, we can help you achieve success.
